

Have you thought about adding FMP® or CFM® to your title?

IFMA's [Facility Management Professional](#) credential is regarded world- and industry-wide as confirmation of knowledge and professionalism in facility management. The [Certified Facility Manager](#) credential sets the industry standard for ensuring the knowledge and abilities of practicing facility managers, and is the most respected designation in facility management.

"Receiving the FMP credential has meant a **promotion** for a management position. I would challenge anyone who hasn't taken the program to **go for it!**"

- Rita E. Heinz, FMP, Corporate Service Manager, Tremco Inc.

Make 2010 the year you GO FOR IT! With IFMA's year-round course delivery, FMP candidates can complete program requirements in class or online; and CFM candidates can fill knowledge gaps in preparation for taking the CFM Exam.

"The CFM designation has absolutely **increased my credibility** with my management team, FM staff and my customer base."

- Scott S. Tibbo, CFM, Director, Real Estate Advisory Services, Expense Management Solutions Inc.
