

Community Outreach Committee Installs New Toilet Partitions for Trinity High School

During the summer, the Community Outreach Committee installed new toilet partitions in the public restrooms at Trinity High School in Shiremanstown. The high school's facility staff had secured the partitions, but needed help to install them, due to a large amount of work that needed to be completed in the school this summer. Over the course of a several weekends, teams of IFMA volunteers installed partitions in both the restrooms in time for the start of the school year.

Thanks to the IFMA Volunteers:

Lynn Desantis, McClure Company

Caroline Knox, RestoreCore

Tom Hewitt, PHEAA

Dave Balinski, CBMC

and a special thanks to Sam Hewitt, a Trinity alumni who contributed several days of hard work to the success of the project.

PYRAMID CONSTRUCTION SERVICES, INC.

A Quandel Enterprises Company

The Committee would also like to thank Pyramid Construction Services for providing two skilled craftsmen for three days near the beginning of the project. They were instrumental in laying out the project, setting anchors and installing many of the dividers and fronts for the stalls. Without their guidance and help the project would have very difficult to complete.
